

Net Zero Strategy – Report January 2024

As we enter the first calendar year of deployment and transition to Net Zero, Ecosafe’s Strategy remains well on track, key milestones have been achieved as detailed below, or on track for scheduled target dates. Our commitment to Net Zero remains absolute. More broadly, Carbon Reduction measures continue to develop and evolve, and we look forward to continued progress towards full reports on our Scope 1,2 and 3 Emissions for 2024 as our first reporting year.

Key Milestones on the journey to Net Zero

Milestones		Target	Actual
1	Membership of SME Climate Hub	Summer 2023	June 2023
2	ISO 14001 Accreditation	By end 2023	December 2023
3	Installation of Solar PV/ EV charging points at our Offices in Poole	By end 2023	September 2023
4	Establish Emissions targets, reporting metrics, and formats compliant with UK Government requirements	Summer 2024	On Target*
5	Identify and initiate training requirements, both for general, company-wide training; and for specific roles required as our Strategy evolves, eg Carbon Champion.	Early 2025	On Target*
6	Publish Year 1 Report – for 2023 as Baseline	Early 2025	On Target

*Note for Milestones 4 & 5, Meetings scheduled with Guidance Team from SME Climate Hub experts (February 2024) to advise, review, and endorse progress and proposals.
